

2009 TOUR OF REMODELED HOMES

SCREENED PORCH

203 STAUNTON DRIVE

PROJECT DESCRIPTION

Busy busy lives! Our homeowners have them. Their goal in this design / remodel screened porch addition was to create a refuge from that busy-ness; to be able to get away from the zoom of daily life without having to travel. They wanted an away place without being away from home. So it's very intentional that this is a place where you can go barefoot comfortably – where you can curl up contentedly and be nurtured. Come and see it for yourselves!

BEFORE

The design-driven natural materials create the “another place” feel of this screened porch providing a special refuge for this busy family.

This custom built screened porch incorporates Douglas fir post and beam timbers along with a cedar roof deck.

DIRECTIONS

203 Staunton Drive, Greensboro

From the intersection of Holden Road and West Market Street, travel west on Market Street to Staunton Drive (.3 miles). Right on Staunton. House is 11th on left just past intersection with St. Lauren Drive.
