

# KITCHEN

2108 ROLLING ROAD

*This state of the art kitchen remodel includes custom cabinetry, Soapstone countertops and upgraded appliances.*

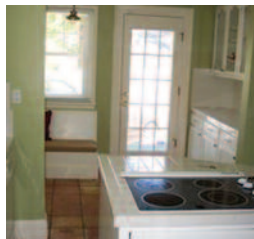

## PROJECT DESCRIPTION

This eight week project consisted of removing the existing 1960's style kitchen and replacing it with a new state of the art kitchen. We have incorporated many of today's most current features, from the custom tiled backsplash and green soapstone countertops to the custom cabinetry and upgraded appliances. No detail was left untouched.

## REMODELER

**CDI Builders, Inc.**  
**Joe Kupiec**
