

KITCHEN

603 ELMWOOD DRIVE

A custom built banquette creates a cozy breakfast area and features easy-access drawer storage and a custom made table.

White painted maple cabinetry outlining the perimeter creates a fresh and open setting. A large wall of closets was removed to provide room for a wet bar and recessed refrigerator.

PROJECT DESCRIPTION

Elmwood Drive is a familiar territory to Acorn Construction, Inc. 603 Elmwood, in particular is very well-known as the previous owners were long time, loyal customers.

When the new owners purchased this home, they knew a kitchen remodel was top priority to accommodate their large family and busy lifestyle. Numerous referrals from neighbors coupled with the solid work already completed in the home awarded Acorn Construction the project.

Collaboration between Acorn Construction and The Kitchen Studio combined with the homeowner's classic taste and the work of an amazing team of sub-contractors, created a timeless kitchen to be enjoyed for years to come.
