

KITCHEN

1811 TENNYSON COURT

This kitchen remodel features Bianco Romano granite with subway tile backsplash.

White beadboard perimeter cabinetry with French blue island accents this beautiful kitchen remodel.

PROJECT DESCRIPTION

Dated countertops and a poorly placed pantry that robbed valuable space originally drove the owners to seek a kitchen update. As discussions progressed, it became evident that an update was not cost effective. In keeping with the French country theme of the home, a new design was created which provided additional cabinetry and countertop space for this family of gourmet cooks.
