

# KITCHEN

## 9 HEATHROW COURT

*Beautiful Brookhaven maple cabinets with candlelight finish along with granite countertops and decorative tile work are highlights of this kitchen.*

*One special feature is the unique Furniture Hutch which provides room for storage and acts as a message center.*

### PROJECT DESCRIPTION

The homeowners had remodeled a previous kitchen with My Dream Kitchen and they had such a positive outcome they were looking forward to another great remodeling experience. For this remodel, an awkward L-shaped bar was removed and a galley kitchen was installed. The opening to the dining room was more than doubled adding to the light and airiness of the space. A large pantry/hutch was designed to allow the homeowners to store food and act as a message center while providing a place to stow computers, cell phone chargers and the other necessary stuff of everyday life. This allows the kitchen to remain visibly inviting, clutter free and easy to work in.
